

RESOLUTION

Whereas, it appearing to the July Term of Quarterly Court, 1946, that the County Road Board has spent for road improvement purposes, the amount of funds provided for it by the Quarterly Court at the January 1946 Term, and

Whereas, the amount of funds provided were not sufficient to improve and gravel all approved projects, and to equalize the several Civil Districts in the County, the budget being exhausted before the proposed program was completed, and

Whereas, the people of the several districts that have not been improved and graveled feel that it will be an injustice to them if their roads are not worked and improved on an equal basis as those that have been, and

Whereas, it is the opinion of this Court that the money received from the sale of the bond issue should be spent in the interest of all people of all the districts as much as possible, and

Whereas, there is now a balance of \$50,000.00 to the credit of Weakley County from the sale of said bond issue which has not been placed to the credit and disposal of the Road Commission, and which cannot be spent for any purpose until this Honorable Court shall so direct:

Be it Therefore Resolved, That this Court now in regular session, on this the 1st day of July, 1946, transfer the said sum of \$50,000.00 to the credit of the Weakley County Road Commission, to be spent in the following manner and none other:

\$23,745.50 to be spent in the several Civil Districts that have not had any consideration or improvement from the so-called \$38,000.00 which was budgeted by this Court at the January 1946 Term. This amount being recommended by the Road Commission to equalize the amount spent in each civil district, and in order that all districts share and share alike. The sum of \$16,302.13, to be deposited to the credit of those districts that did not get their 10¢ gravel tax, so that they may rightfully have and spend in their own districts the 10¢ gravel tax as they have these past several years, it being the intention of this Court that this 10½¢ gravel tax not be spent in any way or for any other purpose but to gravel new roads in the several districts. The balance of the \$50,000.00, which will be approximately \$10,000.00 to be used first in the completion of the school bus routes, and the keeping of the concrete culvert project going grading of all dirt roads in the County and in keeping of the bridges and culverts in good repair.

Respectfully submitted,

WEAKLEY COUNTY HIGHWAY COMMISSION

By: E. G. Fuller, Chairman

Upon the motion of Esquire R. R. Wright and the second of Esquire Dean Grooms the above Resolution as read by Esquire John C. Hatler was adopted at the regular session of the Quarterly Court at its July 1946 meeting.
